1899

American Journal of Mathematics.

VOLS. XI—XX.

Index of Authors.

APPELL, P.

De l'homographie en mécanique,--XII, 103.
Sur les lois de forces centrales faisant décrire à leur point d'application une conique quelles que soient les conditiones initiales,—XIII, 153.
Sur une expression nouvelle des fonctions elliptiques par le quotient de deux séries,—XIV, 9.
Sur une transformation de mouvements,—XVII, 1.
Exemples d'inversion d'intégrales doubles,—XIX, 377.

BASSET, A. B.

On the Steady Motion of an Annular Mass of Rotating Liquid,—XI, 172.
On Toroidal Functions,—XV, 287.
Waves and Jets in Viscous Liquid,—XVI, 93.
On the Deformation of Thin Elastic Plates and Shells,—XVI, 254.
On the Deformation of Thin Elastic Wires,—XVII, 281.
Theories of the Action of Magnetism on Light,—XIX, 60.

BAKER, A. L.

Algebraic Symbols,—XVIII, 62.

BAKER, H. F.

On the Hyperelliptic Sigma Functions,—XX, 301.

BÔCHER, M.

On the Differential Equation $\Delta u + k^2 u = 0$,—XV, 78.
Simplification of Gauss' Third Proof that every Algebraic Equation has a Root,—XVII, 266.

BOHANNAN, R. D.

Simple Proof of a Fundamental Theorem in the Theory of Functions,—XIX, 182.

BOLZA, O.

On the Construction of Intransitive Groups,—XI, 195.
On the Theory of Substitution-Groups and its Applications to Algebraic Equations,—XIII, 59.
On the Transformation Linear Differential Equations of the Second Order with Linear Coefficients,—XV, 264.
On the First and Second Logarithmic Derivatives of Hyperelliptic σ-Functions,—XVII, 11.

BRIOSCHI, F.

Sur une forme nouvelle de l'équation modulaire du huitième dégré,—XIII, 381.

BROWN, E. W.

On the Part of the Parallactic Inequalities in the Moon's Motion which is a Function of the Mean Motions of the Sun and Moon,—XIV, 141.
The Elliptic Irregularities in the Lunar Theory,—XV, 244.
The Elliptic Inequalities in the Lunar Theory,—XV, 321.
Investigations in the Lunar Theory,—XVII, 318.

BRYAN, G. H.

On Certain Applications of the Theory of Probability to Physical Phenomena,—XIX, 283.

CAJORI, F.

On the Multiplication of Semi-convergent Series,—XV, 339.
On the Multiplication and Involution of Semi-convergent Series,—XVIII, 195.

CARTAN, E.

Sur la réduction à sa forme canonique de la structure d'un group de transformations fini et continu,—XVIII, 1.

CAYLEY, A.

On the Surfaces with Plane or Spherical Curves of Curvature,—XI, 71, 293.
On the Theory of Groups,—XI, 139.

Cayley, A.—*Continued.*
On a Soluble Quintic Equation,—XIII, 53.
Corrected Seminvariant Tables for the Weights 11 and 12,—XIV, 195.
On Symmetric Functions and Seminvariants,—XV, 1.
Tables of Pure Reciprocants to the Weight 8,—XV, 75.
Note on the So-called Quotient G/H in the Theory of Groups,—XV, 387.

CHAPMAN, C. H.
On the Matrix which Represents a Vector,—XIII, 363.
Application of Quaternions to Projective Geometry,—XIV, 115.

CHESSIN, A. S.
Summation of Logarithmic and Exponential Series,—XVI, 164.
Note on the General Solution of Bessel's Equation,—XVI, 186.
Corrections,—XVI, 290.
On Foucault's Pendulum,—XVII, 81.
On a Point of the Theory of Functions,—XVIII, 98.
On Non-uniform Convergence of Infinite Series,—XVIII, 128.
On the Analytic Theory of Circular Functions,—XIX, 217.

CHREE, C.
Isotropic Elastic Solids of nearly Spherical Form,—XVI, 299.
Isotropic Elastic Solids of nearly Spherical Form,—XIX, 121.

COLE, F. N.
On Rotations in Space of Four Dimensions,—XII, 191.
Simple Groups from Order 201 to Order 500,—XIV, 378.
Simple Groups as far as Order 660,—XV, 303.

COLE, F. N., and GLOVER, J. W.
On Groups whose Orders are Products of Three Prime Factors,—XV, 191.

COWELL, P. H.
On the Inclinational Terms in the Moon's Coordinates,—XVIII, 99.

CRAIG, T.
A Class of Uniform Transcendental Functions,—XVI, 207.
On Certain Partial Differential Equations connected with the Theory of Surfaces, —XIX, 94.
Displacements depending on One, Two and Three Parameters in a Space of Four Dimensions,—XX, 135.

DAVIS, E. W.

Geometrical Illustrations of Some Theorems in Number,—XV, 84.
A Note on the Factors of Composition of a Group,—XIX, 191.
On the Sign of a Determinant's Term,—XIX, 383.

DICKSON, L. E.

Analytic Functions Suitable to Represent Substitutions,—XVIII, 210.

DUHEM, P.

Sur la pression dans les milieux diélectriques ou magnétiques,—XVII, 117.

ECHOLS, W. H.

A Deduction and Demonstration of Taylor's Formula,—XV, 283.
On the Expansion of Functions in Indefinite Series,—XV, 316.

EIESLAND, J.

Note on the Integration of a certain System of Differential Equations,—XX, 245.

FIELDS, J. C.

The Expression of any Differential Coefficient of a Function of a Function of any Number of Variables by aid of the corresponding Differential Coefficients of any n Powers of the Function, where n is the Order of the Differential Coefficient,—XI, 388.
A Simple Statement of Proof of Reciprocal Theorem,—XIII, 189.
Related Expressions for Bernoulli's and Euler's Numbers,—XIII, 191.
Transformation of a System of Independent Variables,—XIV, 230.

FINE, H. B.

On the Functions defined by Differential Equations, with an Extension of the Puiseux Polygon Construction to these Equations,—XI, 317.
Singular Solutions of Ordinary Differential Equations,—XII, 295.

FORSYTH, A. R.

Systems of Ternariants that are Algebraically Complete,—XII, 1, 115.

FRANKLIN, F.

Note on the Double Periodicity of the Elliptic Functions,—XI, 283.
On Some Applications of Circular Coordinates,—XII, 161.
On Confocal Bicircular Quartics,—XII, 323.

Franklin, F.—*Continued.*

Note on Induced Linear Substitutions,—XVI, 205.
Note on Linear Differential Equations with Constant Coefficients,—XIX, 92.

FRISCHAUF, I.

Bemerkungen zu C. S. Peirce Quincuncial Projection,—XIX, 381.

GLOVER, J. W.

See Cole, F. N.,—XV, 191.

GORTON, W. C. L.

Systems of Rays Normal to a Surface,—XIII, 173.

GOURSAT, E.

Sur les solutions singulières des équations différentielles simultanées,—XI, 329.
Sur un problème relatif à la déformation des surfaces,—XIV, 1.
Sur la transformation des courbes algébriques,—XVI, 291.
Sur les équations linéaires et la méthode de Laplace,—XVIII, 347.

GREENHILL, A. G.

The Motion of a Solid in Infinite Liquid under no Forces,—XX, 1.

HALL, T. P.

The Projection of Fourfold Figures upon a Three-Flat,—XV, 179.

HARDY, J. G.

On Darboux Lines on Surfaces,—XX, 283.

HARRIS, R. A.

Note on the Use of Supplementary Curves in Isogonal Transformation,—XIV, 291.

HASKELL, M. W.

Ueber die zu der Curve $\lambda^3\mu + \mu^3\nu + \nu^3\lambda = 0$ im projectiven Sinne gehörende mehrfache Ueberdeckung der Ebene,—XIII, 1.

HERMITE, CH.

Extrait d'une lettre adressée à M. Craig,—XVII, 6.
Sur le logarithme de la fonction gamma,—XVII, 111.

HEUN, K.

Die Herstellung einer linearen Differentialgleichung aus einem gegebenen Element der Integralfunction,—XI, 215.

HILL, J. E.

On Three Septic Surfaces,—XIX, 289.

HOLGATE, T. F.

On Certain Ruled Surfaces of the Fourth Order,—XV, 344.

HULBERT, L. S.

A Class of New Theorems on the Number and Arrangement of the Real Branches of Plane Algebraic Curves,—XIV, 246.

HUMBERT, G.

Sur les surfaces de Kummer elliptiques,—XVI, 221.

JOHNSON, W. W.

On the Integrals in Series of Binomial Differential Equations,—XI, 37.
Some Theorems relating to Groups of Circles and Spheres,—XIV, 97.

KANTOR, S.

Theorie der Transformationen im R_r, welche sich aus quadratischen zusammensetzen lassen,—XVIII, 219.
Theorie der periodischen cubischen Transformationen im Raume R_s,—XIX, 1.
Ueber Collineationsgruppen an Kummer'schen Flächen,—XIX, 86.
Berichtigung,—XIX, 382.

KLUYVER, J. C.

Concerning the Twisted Biquadratic,—XIX, 319.

KOENIGS, G.

Sur un problème concernant deux courbes gauches,—XIX, 259.

KOENIGSBERGER, L.

Ueber die Reduction von Integralen transcendenter Functionen,—XI, 221.

KUMMELL, C. H.

To Express the Roots of the Solvable Quantics as Symmetrical Functions of Homologues,—XVIII, 74.

LARMOR, J.

Note on Mr. A. B. Basset's Paper, "Theory of the Action of Magnetism on Light,"—XIX, 371.

LIE, S.

Die Begriffe Gruppe und Invariante,—XI, 182.

LITTLE, C. N.

Note on a Geometrical Theorem,—XV, 190.

LOVE, A. E. H.

Vortex Motion in Certain Triangles,—XI, 158.

LOVETT, E. O.

Point Transformations in Elliptic Coordinates of Circles having Double Contact with a Conic,—XX, 242.

MacMAHON, P. A.

Memoir on a New Theory of Symmetric Functions,—XI, 1.
Second Memoir on a New Theory of Symmetric Functions,—XII, 61.
Third Memoir on a New Theory of Symmetric Functions,—XIII, 193.
Fourth Memoir on a New Theory of Symmetric Functions,—XIV, 15.

MANNING, H. P.

Reduction of $\frac{dx}{\sqrt{A(1+mx^2)(1+nx^2)}}$ to $\frac{mdy}{\sqrt{(1-y^2)(1-k^2y^2)}}$ by the substitution $x^2 = \frac{a+by^2}{a'+b'y^2}$,—XIII, 185.

A Note on Linear Transformation,—XIV, 95.
On the Order of Terms in a Semi-Convergent Series,—XVI, 151.

MASCHKE, H.

On Ternary Substitution-Groups of Finite Order which leave a Triangle Unchanged,—XVII, 168.
The Representation of Finite Groups, especially of the Rotation Groups of the Regular Bodies of Three- and Four-Dimensional Space, by Cayley's Color Diagrams,—XVIII, 156.

McCLINTOCK, E.

On the Algebraic Proof of a Certain Series,—XIV, 67.
On Independent Definitions of the Functions log. (x) and e^x,—XIV, 72.
On the Computation of Covariants by Transvection,—XIV, 222.

McClintock, E.—*Continued.*

Theorems in the Calculus of Enlargement,—XVII, 69.

A Method for Calculating Simultaneously all the Roots of an Equation,—XVII, 89.

On the Most Perfect Forms of Magic Squares, with Methods for their Production, XIX, 99.

Further Researches in the Theory of Quintic Equations,—XX, 157.

MERRIMAN, M.

The Deduction of Final Formulas for the Algebraic Solution of the Quartic Equation,—XIV, 237.

METZLER, G. F.

Surfaces of Rotation with Constant Measure of Curvature and their Representation on the Hyperbolic (Cayley's) Plane,—XX, 76.

METZLER, W. H.

On the Roots of Matrices,—XIV, 326.

On Certain Properties of Symmetric, Skew Symmetric, and Orthogonal Matrices, —XV, 274.

Compound Determinants,—XVI, 131.

Compound Determinants,—XX, 253.

A Theorem in Determinants,—XX, 273.

MILLER, G. A.

On the Perfect Groups,—XX, 277.

On the Primitive Substitution Groups of Degree Sixteen,—XX, 229.

MOORE, E. H.

Tactical Memoranda I–III,—XVIII, 264.

MORLEY, F.

On the Geometry of a Nodal Circular Cubic, XI, 307.

On the Epicycloid, XIII, 179.

On Adjustable Cycloidal and Trochoidal Curves,—XVI, 188.

MUIR, T.

On Sylvester's Proof of the Reality of the Roots of Lagrange's Determinantal Equation,—XIX, 312.

A Reinvestigation of the Problem of the Automorphic Linear Transformation of a Bipartite Quadric,—XX, 215.

NELSON, H. B.

A Pair of Curves of the Fourth Degree and their Application in the Theory of Quadrics,—XIV, 87.

OCAGNE (D'), M.

Sur certaines courbes qu'on peut adjoindre aux courbes planes pour l'étude de leurs propriétés infinitésimales,—XI, 55.

Quelques propriétés des nombres K_m^p,—XIII, 145.

Extrait d'une lettre à M. Craig,—XIV, 389.

OSGOOD, W. F.

The Symbolic Notation of Aronhold and Clebsch,—XIV, 251.

The System of Two Simultaneous Ternary Quadratic Forms,—XIV, 262.

Non-uniform Convergence and the Integration of Series Term by Term,—XIX, 155.

PAGE, J. M.

Note on Singular Solutions,—XVIII, 95.

PEANO, G.

Sur la definition de la limite d'une Fonction. Exercice de logique mathematique. XVII, 37.

PEARSON, K.

Ether Squirts,—XIII, 309.

PEIRCE, B. O.

On a Certain Class of Equipotential Surfaces,—XVIII, 130.

PELL, A.

On the Focal Surfaces of the Congruences of Tangents to a Given Surface,—XX, 101.

PEROTT, J.

Remarque au sujet du théorème d'Euclide sur l'infinité du nombre des nombres premiers,—XI, 99, and XIII, 235.

PETROVITCH, M.

Remarques sur les équations de Dynamique et sur le mouvement tautochrone,—XVIII, 135.

Sur l'intégration hydraulique des équations différentielles,—XX, 293.

PICARD, E.

Sur les formes quadratiques binaires à indéterminées conjuguées et les fonctions fuchsiennes,—XI, 187.

Sur l'inversion des intégrales de fonctions à multiplicateurs,—XVI, 111.

Sur les méthodes à Approximations successives dans la Théorie des Equations différentielles,—XX, 87.

PIERPONT, J.

Note on C. S. Peirce's Paper on "A Quincuncial Projection of the Sphere,"—XVIII, 145.

On the Invariance of the Factors of Composition of a Substitution-Group,—XVIII, 153.

POINCARÉ, H.

Sur les Equations aux Dérivées Partielles de la Physique Mathématique,—XII, 211.

Sur les fonctions à espaces lacunaires,—XIV, 201.

PORTER, M. B.

On the Roots of the Hypergeometric and Bessel's Functions,—XX, 193.

ROWLAND, H. A.

Electromagnetic Waves and Oscillations at the Surface of Conductors,—XI, 373,

SAUSSURE (de), R.

Note sur les lignes cycloidales,—XVII, 269.

Etude de Géométrie Cinématique réglée,—XVIII, 304.

Calcul Géometrique Réglé,—XIX, 329.

SCOTT, C. A.

On the Higher Singularities of a Plane Curve,—XIV, 301.

The Nature and Effect of Singularities of Plane Algebraic Curves,—XV, 221.

SHAW, J. B.

Development of the *A*-Process in Quaternions, with a Geometrical Application,—XIX, 193.

The Linear Vector Operator of Quaternions, XIX, 267.

SOURVOROFF, T.

See Wassilieff, A.,—XV, 285.

STAUDE, O.

Ueber den Sinn der Windung in den singulären Puncten einer Raumcurve,—XVII, 359.

STEINMETZ, C. P.

On the Curves which are Self-reciprocal in a Linear Nulsystem, and their Configurations in Space,—XIV, 161.

Multivalent and Univalent Involutory Correspondences in a Plane determined by a Net of Curves of n^{th} Order,—XIV, 39.

STRINGHAM, I.

A Classification of Logarithmic Systems,—XIV, 187.

STUDY, E.

On the Addition Theorems of Jacobi and Weierstrass,—XVI, 156.

On Irrational Covariants of certain Binary Forms,—XVII, 185.

On the Connection between Binary Quartics and Elliptic Functions,—XVII, 216.

TABER, H.

On the Theory of Matrices,—XII, 337.

On Certain Identities in the Theory of Matrices,—XIII, 159.

On Orthogonal Substitutions that can be expressed as a Function of a Single Alternate (or Skew Symmetric) Linear Substitution,—XVI, 123.

TALIAFERRO, T. H.

Note on Lines of Curvature,—XVII, 273.

THOMPSON, H. D.

Hyperelliptische Schnittsysteme und Zusammenordnung der algebraischen und transcendentalen Thetacharacteristiken,—XV, 91.

VAN VLECK, E. B.

Zur Kettenbruchentwickelung hyperelliptischer und ähnlicher Integrale,—XVI, 1.

On the Roots of Bessel- and P-Functions,—XIX, 75.

WASSILIEFF, A., and SOURVOROFF, T.

Announcement by the Physico-Mathematical Society of the University of Kasan, XV, 285.

WHITE, H. S.

On Generating Systems of Ternary and Quaternary Linear Transformations,—XIV, 274.

A Symbolic Demonstration of Hilbert's Method for deriving Invariants and Covariants of given Ternary Forms,—XIV, 283.

Semi-Combinants as Concomitants of Affiliants,—XVII, 235.

YOUNG, J. W. A.

On the Determination of Groups whose Order is a Power of a Prime,—XV, 124.

Index of Subjects.

ALGEBRA.

DETERMINANTS.

Davis, E. W. On the Sign of a Determinant's Term,—XIX, 383.
Metzler, W. H. Compound Determinants,—XVI, 131.
" " Compound Determinants,—XX, 253.
" " A Theorem in Determinants,—XX, 273.
Muir, Thomas. On Sylvester's Proof of the Reality of the Roots of Lagrange's Determinantal Equation,—XIX, 312.

GENERAL THEORY.

Baker, A. L. Algebraic Symbols,—XVIII, 62.
Bôcher, Maxime. Simplification of Gauss's Third Proof that every Algebraic Equation has a Root,—XVII, 266.
Kummell, Chas. H. To Express the Roots of the Solvable Quantics as Symmetrical Functions of Homologues,—XVIII, 74.
McClintock, Emory. A Method for Calculating Simultaneously all the Roots of an Equation,—XVII, 89.
Manning, H. P. A Note on Linear Transformations,—XIV, 95.
Moore, E. H. Tactical Memoranda I-III,—XVIII, 264.

INVARIANTIVE THEORY.

Cayley, A. Corrected Seminvariant Tables for the Weights 11 and 12,—XIV, 195.
" " On Symmetric Functions and Seminvariants,—XV, 1.
" " Tables of Pure Reciprocants to the Weight 8,—XV, 75.
Forsyth, A. R. Systems of Ternariants that are Algebraically Complete,—XII, 1, 115.
Franklin, F. Note on Induced Linear Substitutions,—XVI, 205.
Lie, Sophus. Die Begriffe Gruppe und Invariante,—XI, 182.

Algebra.—*Continued.*

MacMahon, P. A. Memoir on a New Theory of Symmetric Functions,—XI, 1.
" " Second Memoir on a New Theory of Symmetric Functions,—XII, 61.
" " Third Memoir on a New Theory of Symmetric Functions,—XIII, 193.
" " Fourth Memoir on a New Theory of Symmetric Functions,—XIV, 15.
